

WORLD ENVIRONMENT DAY 2019

Nandankanan Zoological Park celebrates the World Environment Day on 5th June, 2019 by organizing and promoting the day through a series of engaging activities and events generating strong public interest and participation. This day started with clean up drive of zoo premises. Followed by planting of tree saplings by the officials and visitors in the identified locations inside the zoo. A signature campaign was organized in front of interpretation centre to create awareness to free the earth from air pollution. The visitors coming from different parts of the country have participated in this campaign. A quiz competition was also organized on this year theme “Beat air pollution” where visitors were participated and given environment day kit with trophy as token prize.
